Approved For Release 2003/08/12 : CIA-RDP82-00457R014800040007-1 SECRUI Date Composition of From Τo Troop Trains 2 converted boxcars and Rathenow Fuerstenberg 20 September (4)7 flatcars S converted boxcars, undetermined Gardelegen 21 September 2 boxcars and (5)ll flatcars 25X1 Commonts. (1)25X1 The train reported in the reference report probably carried elements of the 91th RL Regt (US) of the XXIX 3ds Ltz Lifle Corps returning to Bisenach from 25X1 where they moved to Altengrabow on 4 September 1952, (2)consisted of 10 converted boxcars and 20 flatcars. 25X1 It is believed that the comment pertaining to the troop train reported in the reference report is still current. (3)It was assumed that the troops reported in the reference report had left for field exercises, However, reasons for the unloading of 25X1 the troop trains reported in the present report at lagdeburg are not known. Thus it is believed that these trains either were redispatched from Magdeburg or that the troops transported by the two trains were to march from Magdeburg to a training area, (h) The troop trains from Rathenow to Dallgow-Doeberitz and to Fuerstenberg probably carried units of the becond Gds Mecz Army which returned from field 25X1 exercises in the Mathenew area. The units loaded on the troop trains to Jaevenitz and to Gardelegen cannot be identified.
